

No more costly accidents!

Get the right colour

# Use PANTONE®

You get five essential colour reference tools plus a convenient carrying case in one value package

## PANTONE® HUEY R2368.00

Designed for calibrating and profiling all types of monitors - LCD & CRT. Each individual package includes a huey measurement device (emission only colorimeter) with ambient measurement capabilities and software for monitor calibration.

Huey corrects the colour on your monitor so photos & designs print more accurately, game graphics are more intense & movies are more true-to-life. Easy to use right out of the box, huey adapts your monitor for changing room lighting & applies your personal

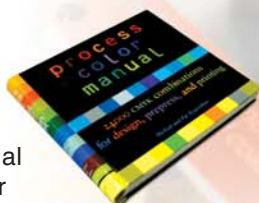

## ULTIMATE SURVIVAL KIT R4618.00 GPE204

- Essential Formula Guides on Coated, Matt and Uncoated stocks
- Process Guide Coated Euro
- Colour Bridge Guide Coated Euro

Select PANTONE® MATCHING SYSTEM Colours from PANTONE® formula guides on coated, uncoated and matt stocks and see how solid colours will print when specified in CMYK with the PANTONE® solid to process guide. Or choose process colours from the PANTONE® process guide on coated stock.

All five guides come neatly packaged in a designer storage case for convenience and protection. Use it as a reference tool at your workstation. Bring it to presentations to give clients precise colour information. Carry it to separators and printers to ensure accurate reproduction of your ideas.

## The CMYK Process Colour Manual R880.00

The Process Colour Manual is a comprehensive colour guide (CMYK) with 24 000 colours spread over 255 pages.

The Process Colour Manual contains both black and 10% steps. The typical end users are desktop workers and designers, advertising people, pre-press, printers and marketing people.

## COLOUR CUE R5493.00

GEB103

Where else could you get solid PANTONE Colour ink formulas, CMYK, RGB, sRGB, HTML, Lab and Hexachrome values in a single device that fits in the palm of your hand?

The PANTONE Colour Cue is an intelligent hand-held spectro-colorimeter programmed with PANTONE MATCHING SYSTEM Colour data. No bulky cords or complicated software.

## Formula Guides R1993.00

GP1202

Accurately select, specify and communicate solid colours with PANTONE formula guides. Each Guide contains 1 114 solid PANTONE MATCHING SYSTEM Colours, with their respective ink mixing formulas, printed on coated, uncoated and matt stocks.

## PANTONE solid chips

Getting the correct colour is important, therefore send a chip! Then both designer and printer are looking at the same colour. This overcomes the unavoidable problem of colours fading with time and use. Chip books contain 1 114 PANTONE® colours and are shown on gloss coated, matt coated and uncoated papers, to aid accurate selection and control of colour. Replacement chip pages are also available.
